Summary

I'm Parmar Navin, a passionate and creative Graphics Designer trained at Red & White Skill Education. I specialize in creating visually appealing designs using Adobe Photoshop, Illustrator, and InDesign. From branding and logo design to posters, social media creatives, and print designs, I love transforming ideas into meaningful visual experiences. I'm a quick learner who enjoys exploring new design trends and AI tools to enhance creativity. My goal is to create professional, attractive, and impactful designs that bring brands and ideas to life.

Currently pursuing Graphic Design training at Red & White Skill Education, developing skills in branding, typography, visual design, and industry-standard design tools through practical projects.

Skills

- Adobe Photoshop
- Adobe Illustrator
- inDesign

Projects

Aurelia - Jewellery Brand Identity
Brand Identity / Graphic Design
Aurelia is a luxury jewellery brand identity project focused on creating a premium, elegant, and memorable visual identity. I designed a sophisticated golden logo featuring a stylized 'A' with a diamond-inspired element, representing luxury and craftsmanship. I also created a professional business card design with coordinated brand colors, typography, contact details, and a QR code. The project showcases a consistent visual identity across logo design, stationery, and realistic brand mockups.

KG Cafe - Kem Cho Cafe
Brand Identity & Graphic Design
A complete café branding project for KG Café – Kem Cho Café, featuring a warm, elegant, and modern visual identity. The project includes a custom logo, visiting cards, menu card design, and realistic branding mockups, combining earthy brown tones, cream accents, and refined typography to create a welcoming café aesthetic

Coffee - Social Media Design
Social Media Design & Advertising
A creative social media advertising design for The Coffee Cup, featuring a rich coffee-themed aesthetic, bold typography, and a realistic coffee splash composition. The design combines warm brown tones, eye-catching visuals, and clear promotional elements to create an engaging and premium coffee advertisement for social media marketing.

iPhone 16 Pro - Manipulation Design
Manipulation Design & Advertising
A premium product manipulation featuring the iPhone 16 Pro, combining realistic 3D composition, dramatic lighting, and elegant brown tones. The design showcases the device in a luxurious, high-end setting, highlighting creative visual presentation, depth, and professional product advertising aesthetics.
